Find the floor that fits your personality

balterio

no ordinary floors

Unbeatable quality

Balterio meets your – no ordinary – expectations: our floors are designed and developed in line with current trends and completely created with you in mind, with a variety of plank sizes in 9 mm and 8 mm with revolutionary Hydroshield technology.

OUTSTANDING QUALITY

You expect a floor that will last, that's exactly what you get: the best price-quality ratio and long-lasting warranties. A Balterio floor is strong and stable. It is wear, scratch and impact resistant. It is also compatible with underfloor heating and cooling.

AC4

EN13329 - EN15468

All Balterio laminate floors have an AC4 class 32 rating, suitable for heavy residential and medium commercial use.

LONG-LASTING WARRANTIES

You don't need to worry about durability as our floors come with a residential warranty up to 25 years. For floors with waterproof surface, we offer a wet warranty* up to 10 years.

25 YEAR heavy

5 YEAR light

wet warranty

WE PRODUCE RESPONSIBLY

Balterio is friends with the environment. Our laminate floors carry the PEFC label, European Ecolabel and EPLF label: your guarantee of responsible forestry management, a durable quality product and sustainable production process.

PEFC Certified

This product is from sustainably managed forests and controlled sources

*more info on balterio.com

Lifelike design

Each plank is unique, just as it is in nature

Immenso - IMM61047 Lowlight Crater Oak

Balterio is so close to real wood the planks are hardly distinguishable from parquet. Our laminate collection exudes unprecedented contrast and depth. Every grain and every knot looks lifelike.

Warm and vivid wood designs with intense colours, richly detailed and full of character.

INSPIRED BY NATURE

Discover vivid designs with intense colours. From light to dark, from beautiful pines, traditional oaks to exotic woods. From soft grains to pronounced knots. From refined to rustic and from oiled to chalked.

NATURAL VARIETY

Flooring built up with the exact same planks screams fake. That's why we invest in natural variety. The different designs in our 8 mm and our premium 9 mm collections consist of up to 28 different planks, each with their own wood pattern, so there is little repetition in a floor.

Traditions - TRD61012 Royal Oak

Balterio floors feel truly genuine too. They have the vivid cracks and knots you expect from authentic wood. It is in our DNA to take nature's realism to the next level. We reproduce wood and give it a realistic texture enhanced by technology.

TRUE TO NATURE TEXTURE

Balterio floors have a true-to-nature touch. The embossing process accentuates the natural wood grains and knots with variations in depth and gloss on multiple levels. We are happy to explain the little differences in texture, but we recommend seeing and feeling it in real life.

True to nature

NATURAL GROOVES

V-grooves on the sides of the planks ensure that refined parquet look. The wood pattern runs naturally into the groove and the core is better protected against moisture. In the Hydroshield** collection, the grooves are pressed in the top of the plank

natural V-groove

→ **Did you know?** There's a practical benefit to textured laminate: a textured floor not only looks and feels authentic, it is a lot more forgiving than smooth surfaces to the hazards of everyday life, such as kids or pets playing around.

Excellent protection

Balterio laminate floors can take a beating

Immenso - IMM61041 Corsignano Oak

There’s more to our floors than meets the eye: we develop strong features and functionalities that might go unnoticed at first glance, but certainly add premium value. That’s how we make a difference.

SCRATCH PROTECTION

Our 8 and 9 mm collections are extremely wear resistant. The top layer with patented Scratch Protect technology offers the best possible protection against micro scratches.

ANTI-STATIC FLOORS

Most Balterio floors receive a permanent anti-static treatment*. This means static electricity charges cannot accumulate anymore, even in dry climate conditions. Anti-static surfaces are easier to clean as dirt and dust adhere less to the floor.

*more info on balterio.com

All of our collections have a waterproof surface. The HydroShield protection technology and renowned click systems prevent water or other liquids from seeping into the joints. The floors are perfectly suitable for every space in your home, from living areas and bedrooms to kitchens and bathrooms.

100% WATERPROOF SURFACE

Are you always the one who spills a drink? Or accidentally knocks over the bucket of water? Our 8 and 9 mm floors can handle you. Now if you would spill something on the floor, just relax, no harm is done and cleaning is a breeze. We stand by our waterproof surface promise, so we gladly offer you a wet warranty* on our HydroShield collections.

HYDROSHIELD PROTECTION

Thanks to the HydroShield protection, your laminate floor is resistant to water for up to 24 hours*. HydroShield combines a tight and water-repellent click system with natural looking V-grooves: no water can seep into the click joints. It's the perfect solution for kitchens and bathrooms. The HydroShield collections are indicated with a water drop.

*more info on balterio.com

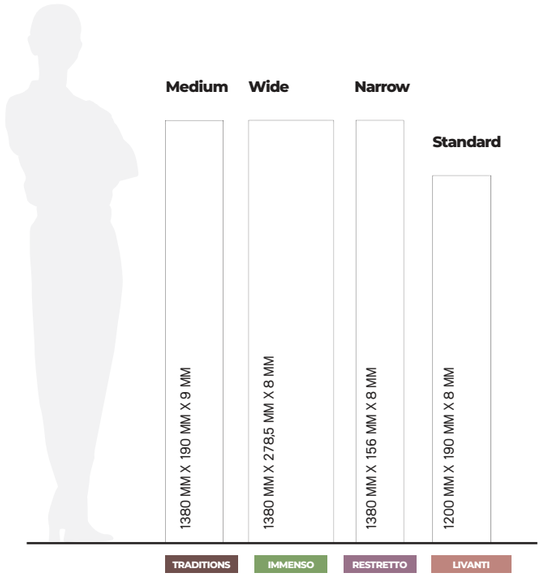

Balterio offers you a variety of different plank dimensions to choose from. The plank size can have a positive impact on the interior feel. Choose a plank size that matches the proportions of the room for more balance.

VARIOUS PLANK SIZES

Balterio stands out from the crowd with unique plank sizes. If you prefer narrow planks you can opt for Restretto. For wide planks the Immenso collection may be for you. Of course, there's also a range of medium and standard size planks.

TWO THICKNESSES

The thicker the plank, the stronger it is. This simple division based on thickness gives you an instant quality and price indication, in our very affordable 8 mm and 9 mm collections.

Discover the 9 mm collection

Traditions P. 18

Extraordinary

Looking extremely good and performing even better, that's what the 9 mm range is all about. The Traditions range is Balterio's finest collection: these premium quality flooring solutions are extremely realistic, super strong and have a waterproof surface thanks to HydroShield technology,

Traditions

The Traditions collection is sure to supersede your expectations. Beautiful wood design, full of character. With several traditional oaks from elegant to rustic, and exotic woods with a wonderful realistic look and feel. A Traditions floor is what you call a natural beauty, even in a kitchen and bathroom, as the planks have a waterproof surface. What's more: the floor is stronger than ever.

9 mm, medium plank

1380 X 190 MM | 6 PLANKS/PACK | 1,5732 M^2

- ✓ TRUE TO NATURE
- ✓ NATURAL VARIETY: 18 PLANKS PER DESIGN
- ✓ 4-SIDED NATURAL V-GROOVE
- ✓ SCRATCH PROTECT
- ✓ WATERPROOF SURFACE
- ✓ COMPLEMENTARY ACCESSORIES

Traditions

4-sided natural V-groove
No straight running grooves. Traditions is all about natural irregularity: rough-cut bevels create the optical effect of a slightly open joint, even though the planks fit perfectly.

P.9

TRD61009

←
Variation in texture and gloss on multiple levels
The embossing process accentuates natural wood grains, cracks and (dead or living) knots on multiple levels. Wire brushing opens up the grains, while the different textures and gloss levels, from matte to silky, highlight the cracks in depth and knots on top.

Immenso

The Immenso collection offers wide planks, with lively wood designs, raw and rustic. With Immenso, you bring bold elegance into your interior. Less busy lines for a far more soothing appearance. It's very impressive to see how the wide planks of an Immenso floor can change the look and feel of a space completely.

8 mm, wide plank

1380 X 278,5 MM | 6 PLANKS/PACK | 2,306 M^2

- ✓ TRUE TO NATURE
- ✓ NATURAL VARIETY: 14 PLANKS PER DESIGN
- ✓ 4-SIDED NATURAL V-GROOVE
- ✓ SCRATCH PROTECT

Restretto

Restretto represents pure refinement. It's a surprisingly dynamic flooring solution for anyone who loves a linear look inside, even in a kitchen and bathroom. Restretto has the exceptional power to open up spaces, depending on the way the planks are laid, they can extend or broaden a room visually. So, Restretto is stylish, and smart. The question is: are you?

8 mm, narrow plank

1380 X 156 MM | 8 PLANKS/PACK | 1,722 M²

WATERSHIELD KIT FOR WET ROOMS

Always use the WaterShield kit in a bathroom

To guarantee a waterproof surface finish of a HydroShield floor in a bathroom, always use the Smart Finish hydro kit

The WaterShield kit ensures a watertight and transparent sealing of connection joints between skirting boards and walls, along walls, radiator pipes and profiles.

With Balterio click systems, it's extremely easy to install laminate. Each click system guarantees a strong and seamless transition from one plank to the next.

Uniclic®

Uniclic combines fast and simple installation with strong locking and seamless joints for a lasting result.
With Uniclic, the planks can also be snapped together in a horizontal way, ideal for installation under door frames, radiators, etc. Use the Balterio installation kit.

UNICLIC® PATENTED TECHNOLOGY

FitXpress®

All you have to do is press the flooring planks into place end to end. Just rely on the fold-down installation system: the clip inside the plank ensures that the short sides lock together immediately.

FITXPRESS®

→ Lifetime warranty on the click

Proper installation combined with the right maintenance guarantees many years of carefree enjoyment. Balterio offers a lifetime warranty (limited to 33 years) on the integrity of the click connection, on condition that they have been installed with Balterio underlays.

Enjoy your floor for years to come

Dry-clean a Balterio floor with a soft brush or vacuum cleaner for daily use. For intensive use: clean the floor with a slightly damp floor cloth and dry off with a clean one. On HydroShield floors you can use a wet floor cloth, but remember, you still have to dry the floor within 24 hours to keep its quality appearance for years.

Choose your Balterio floor wisely

Where do you wish to install a Balterio floor?

A living room on the ground floor or the kids' bedroom on the second floor, it might have an impact on the budget you'd like to spend on a floor. Rest assured, within the Balterio range, there's a quality flooring solution for every budget, with less or more features: bigger sizes, better protection, more natural variety...

Do you want to install the floor in a wet area?

Choose a Balterio floor with HydroShield protection: thanks to the HydroShield technology, your laminate floor is resistant to water for up to 24 hours. The perfect solution for kitchens and bathrooms.

Have you ever thought about design repetition?

+28 different planks per design
NATURAL VARIETY

Flooring built up with the exact same planks screams fake. If you're looking for more natural variety, Balterio is the right choice: Balterio laminate designs consist of 10 up to 28 different planks, so there's hardly repetition in a floor.

Will the floor be used intensively?

Kids or pets playing around? Go for an extremely wear resistant floor with patented Scratch Protect technology, it offers the best possible protection against micro scratches.

All Balterio laminate is suitable for heavy residential and medium commercial use. Balterio ensures great quality with long-term warranties.

Choose the right underlay P. 40

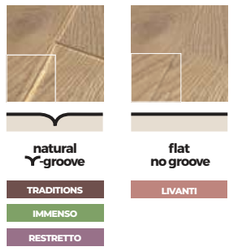

What's the effect of the plank size on a room?

A few general reflections: choose longer and/or wider planks if you have a large room, and shorter and/or narrower planks for a small room. Depending on the way the planks are laid, they can extend or broaden a room visually. But every space is different. Be sure to get advice from your local Balterio dealer.

Do you prefer a floor with or without grooves?

A bevel or groove enhances the natural look and feel of a Balterio laminate floor. It makes it look more sophisticated. On the other hand, a continuous floor without grooves is a bit more maintenance-friendly.

Choose complementary accessories P. 42
